**We are a community of New Zealand educators, technologists, translators, and more who contribute to the one laptop per child project.**

Our goal is to get a laptop loaded with educational tools into the hands of every one of the world's poorest children. OLPC has shipped to millions of children around the world, given laptops to every child and teacher across entire countries. The work continues.

We write software, test other people's software, design educational activities, and translate text. We are part of a global effort of professionals, volunteers, students, and people like yourself.

We also are deploying pilots into New Zealand schools. Come talk to us about the olpc hardware and the Sugar educational software.

We meet once a week in Wellington and Auckland. Everyone is welcome to join us. We have brunch, drink coffee, and enjoy conversation while continuing the good work.

**Mission Statement:** *To create educational opportunities for the world's poorest children by providing each child with a rugged, low-cost, low-power, connected laptop with content and software designed for collaborative, joyful, self-empowered learning. When children have access to this type of tool they get engaged in their own education. They learn, share, create, and collaborate. They become connected to each other, to the world and to a brighter future.*

**Want to join us?**

Step 1) join our mailing list - <http://lists.laptop.org/listinfo/olpc-nz>

Step 2) Find your local group -

**Wellington** meets every week, Saturday 11am at the Cross, 35 Abel Smith Street. <http://thecross.co.nz/>

**sugar** on a stick

Download Sugar and try it: [http://wiki.sugarlabs.org/go/Sugar\\_on\\_a\\_Stick](http://wiki.sugarlabs.org/go/Sugar_on_a_Stick)

Sugar can run from a USB stick or can run in a virtual machine on your computer.
